This episode also considers the very first miniseries, "Rich Man, Poor Man," as stars Peter Strauss and Susan Blakely offer fresh insights. New interviews with Richard Chamberlain, Rachel Ward and Bryan Brown mark the 30th anniversary of one of television's biggest events.

Building Pharaoh's Chariot

Some historians claim that the Egyptian chariot launched a technological and strategic revolution and was the secret weapon behind Egypt's greatest era of conquest known as the New Kingdom. But was the chariot really a revolutionary design? How decisive was its role in the bloody battles of the ancient world? A team of archaeologists, engineers, woodworkers and horse trainers builds and tests two accurate replicas of Egyptian royal chariots. Driving them to their limits in the desert outside Cairo, NOVA's experts test the claim that the chariot marks a crucial turning point in ancient military history.

Follow a team of experts who build and test accurate replicas of Egyptian royal chariots.

NATURE

Cold Warriors: Wolves and Buffalo

For thousands of years, wolves hunted buffalo across the vast North American plains, until the westward settlement of the continent saw the virtual extinction of these vast herds and their eternal predators. However, this ancient relationship was not lost altogether and continues uninterrupted in only one location — the northern edge of Canada's central plains in a place named Wood Buffalo National Park. Today, the descendants of those ancient buffalo and wolves still engage in the epic life-and-death dramas across this northern land. Their story is captured in thrilling cinematic glory by a lone filmmaker who has followed them for more than 20 years.

AMERICAN EXPERIENCE

Billy the Kid

Airs 7pm Tuesday, February 19

Also airs 2/21 1am, 4am

On April 28, 1881, 21-year-old Henry McCarty, alias Billy the Kid, outfoxed his jailors with the latest in a long line of daring escapes. A few weeks later, the outlaw was gunned down. Demonized by the lawman who killed him, the Kid was soon mythologized while his real story has been obscured. Caught in the middle of a centuries-old Irish-English conflict playing out on the plains of the Southwest, the Kid captured national attention with his reckless violence. His fascination with Mexican culture, his flair for Spanish and his disdain for the Anglo authorities made him a hero of sorts to the Hispanic community, who hid him when the law came looking and mourned him when he was gone.

9:00 The Path to Violence Schools and law enforcement have developed multiple strategies to prevent attacks. Remarkably, more than 120 school assaults have been thwarted in the past ten years. However, while security hardware and physical barriers can play a deterrent role, it's been the collaborative efforts of psychologists and law enforcement officers that have discovered the most helpful tools. Learn about an effective Secret Service program—the Safe School Initiative—that's helped schools detect problem behavior in advance. Despite the progress made, recent attacks reveal a gaping hole in our safety net.

Sister Rosetta Tharpe: Godmother of Rock & Roll

Discover the life, music and influence of African-American gospel singer and guitar virtuoso Sister Rosetta Tharpe (1915–1973). Southern-born, Chicago-raised and New York-made, “She could play the guitar like nobody else... nobody.” During the 1940s–60s, Sister Rosetta introduced the spiritual passion of her gospel music into the secular world of rock’n’roll, inspiring the male icons of the genre. The flamboyant superstar, with her spectacular playing on the newly electrified guitar, had a major influence on black musicians, including Chuck Berry, Little Richard, Isaac Hayes and Etta James, and also on white stars such as Elvis Presley, Johnny Cash, Jerry Lee Lewis and Carl Perkins.

Battle for the Elephants

The elephant, Earth's most charismatic and majestic land animal, today faces market forces driving the value of its tusks to levels once reserved for gold. This groundbreaking National Geographic special goes undercover to expose the criminal network behind ivory's supply and demand. It also demonstrates how the elephant, with its highly evolved society, keen intelligence, ability to communicate across vast distances and to love, remember and even to mourn, is far more complex than ever imagined. More revelations are sure to follow, but only if the outspoken and courageous crime investigators and conservationists showcased in this program prevail.

ONE-HOUR SPECIAL

**Airs 8am and 2pm Monday, February 18;
8:30am Saturday, February 23; and 7am Sunday, February 24**

Dinosaur Train: Submarine Adventure

Premiering on the school holiday date of February 18, this one-hour special packages four undersea stories. When Buddy and his family want to follow some friends on an undersea fishing trip, the conductor unveils a new invention—the Dinosaur Train Submarine! On its maiden voyage, Otto Ophthalmosaurus guides the sub deep into the ocean using his big eyes that can see in the dark. Then, the family meets Shoshana Shonisaurus, an enormous marine reptile that's something between a dolphin and a whale, and Maisie Mosasaurus, a huge fast swimming lizard with flippers. Finally, the family watches small eggs hatch on the beach. Baby Archelon turtles emerge and start to swim away. The family follows them on their journey across the ocean where they will grow up to be giant-sized sea turtles.

ALSO IN FEBRUARY

Sesame Street will begin premiering new episodes focusing on an arts theme, including a *Downton Abbey* spoof beginning February 4.

Martha Speaks has a football-themed episode premiering February 1, as Super Bowl weekend begins.

Martha Speaks and **Arthur** team up on February 4 to "Gimme Shelter"—both series have dog shelter stories in premiere episodes on Monday, February 4. **MARTHA SPEAKS** continues with shelter story repeats throughout the rest of the week of February 4-8.

Daniel Tiger's Neighborhood, **Clifford the Big Red Dog**, **Arthur**, **Martha Speaks**, **SuperWhy!**, **Dinosaur Train**, **Wordworld**, **Caillou** and **Wordgirl** will have Valentine's-themed or love-related episodes on February 14.

Celebrate America Montana

Nine Montana High School Choirs performed with Nationally Acclaimed composer Tim Janis at the MontanaPBS studio. Time Janis, well known for his "Music with a Mission" has worked on many philanthropic projects including Celebrate America Montana.

Celebrate America, which will air on Monday, March 7 at 7pm, was taped at Montana Public Television early this past January. Busses rolled in from across the state, pulling together 300 students from Montana high school music programs. This program gives our youth a life-changing opportunity and teaches children the importance of contributing to community through the arts.

Please join us on Monday, March 4 at 7pm as we air Celebrate America Montana live!

You don't want to miss this wonderful showcase of Montana high school music programs.

FRONTLINE

Raising Adam Lanza

In the wake of the mass killings at Sandy Hook Elementary School, *Frontline* investigates a young man and the town he changed forever. Adam Lanza's motives, and his life, remain largely a mystery. With The Hartford Courant, look for answers to the central — and so far elusive — question: Who was Adam Lanza? Also this hour: In the aftermath of the tragedy, President Obama called for a national conversation about guns. Nowhere is that conversation more intense than in Newtown, where a town is divided. Hear how those closest to the tragedy are wrestling with our nation's gun culture and laws.

In the wake of the mass killings at Sandy Hook Elementary School, *FRONTLINE* investigates a young man, Adam Lanza (shown in 2005), who left behind a trail of death and destruction, but little else.
